

## Labels for Bricks

- › BrickTAG™ labels adhere to rough and uneven surfaces, such as concrete, clay bricks, lime stones, as well as marble and granite slabs
- › Waterproof and weatherproof, these tough construction labels withstand extreme weather conditions
- › Our brick labels resist general chemical exposure, making them perfect for labeling chemical-resistant and acid bricks
- › Compatible with most brands of thermal-transfer barcode printers, which can be used to design and print barcodes, serialized numbers, and text

SKU#	Inches (W x H)	mm (W x H)	Core	Labels/Roll
ZBRK-86C1-1WH	3" x 1.25"	76.2 x 31.8	1"	1,000
ZBRK-86C3-2WH	3" x 1.25"	76.2 x 31.8	3"	2,000
ZBRK-56C1-0.5WH	3" x 2"	76.2 x 50.8	1"	500
ZBRK-56C3-1WH	3" x 2"	76.2 x 50.8	3"	1,000

## Labels for Lumber & Wooden Surfaces

- › LumberTAG™ labels are coated with a strong permanent adhesive that adheres to rough wood surfaces, including lumber, plywood boards, and wood logs
- › These durable construction labels are waterproof and withstand a wide temperature range, from -54°C to +72°C (-65°F to +160°F), making them ideal for material exposed to the harsh outdoors and changing weather conditions
- › Compatible with most brands of thermal-transfer barcode printers, which can print high-quality barcodes and high-resolution text
