

# Heat-Resistant Identification Solutions

# Durable Labels for High-Heat Environments

Our heat-resistant labels are intended for use in high-temperature conditions (up to 150°C/302°F), including identifying and tracking under-the-hood auto parts, electric and electronic equipment, and for in steel manufacturing.

These heatproof labels are available for printing with either thermal-transfer or laser/inkjet printers. Perfect for identifying parts and machinery that might overheat or be subjected to elevated temperatures with high-quality barcodes, or serialized information.

## Standard Heat-Resistant Labels for Thermal-Transfer Printers

- Can withstand elevated temperatures (up to +150°C/+302°F)
- Strong permanent adhesive will adhere to metal, plastic, and glass surfaces
- Supplied in sheets, for easy printing with desktop inkjet printers, and formatting using our free online templates

SKU# (White)	SKU# (Colors)	Inches (W x H)	mm (W x H)	Core	Labels/ Roll	Adhesive	Colors Available

## Self-Laminating Heat-Resistant Labels for Thermal-Transfer Printers

- Resist extreme temperatures, including high-heat conditions (-60°C/-76°F to +150°C/+302°F)
- Clear laminate protects the printout from abrasion, friction, and exposure to harsh chemicals, including solvents, and commercial thinners
- Can be printed with serialized information as well as 1D and/or 2D barcodes, using all common thermal-transfer printers, for improved asset tracking and maintenance

SKU#	Inches (W x H)	mm (W x H)	Core	Labels/Roll	Adhesive
ZSLPA-534NPC1-0.5WH	0.75" x 2.25"	19.1 x 57.2	1"	500	Permanent
ZSLPA-534NPC3-1WH	0.75" x 2.25"	19.1 x 57.2	3"	1,000	Permanent
ZSLPA-284C1-0.5WH	1" x 2.125"	25.4 x 54	1"	500	Permanent
ZSLPA-284C3-1WH	1" x 2.125"	25.4 x 54	3"	1,000	Permanent

## Block-out Heat-Resistant Labels for Thermal-Transfer Printers

- Heat-resistant, will withstand exposure to high-heat (up to +150°C/+302°F)
- Unique opaque design allows the labels to cover-up pre-existing labels and outdated or sensitive information
- Printable with all common thermal-transfer barcode printer brands

SKU#	Inches (W x H)	mm (W x H)	Core	Labels/Roll
ZBOA-19C1-1SI	1.3" x 0.625"	33 x 15.9	1"	1,000
ZBOA-19C3-3SI	1.3" x 0.625"	33 x 15.9	3"	3,000
ZBOA-28C1-1SI	2" x 1"	50.8 x 25.4	1"	1,000
ZBOA-28C3-2SI	2" x 1"	50.8 x 25.4	3"	2,000

## Standard Heat-Resistant Labels for Inkjet Printers

- Can withstand elevated temperatures (up to +150°C/+302°F)
- Strong permanent adhesive will adhere to metal, plastic, and glass surfaces
- Supplied in sheets, for easy printing with desktop inkjet printers, and formatting using our free online templates

SKU#	Inches (W x H)	mm (W x H)	Labels/Pack
ZINKA-13	1.75" x 0.5"	44.5 x 12.7	1,280
ZINKA-63	2" x 1.125"	50.8 x 28.6	432
ZINKA-106	3" x 2"	76.2 x 50.8	160
ZINKA-61	3.5" x 2"	88.9 x 50.8	160

# We Offer Custom Manufacturing!

Choose from a range of materials, sizes, and formats made to withstand harsh working environments. Our dedicated support staff is always ready to help you design the right identification solution for your application, with labels that comply with North American and European regulations, including RoHS and UL standards.
