

## Why Choose IndustriTAG

- GA International Inc. has over 20 years of experience developing innovative printing and labeling materials and is committed to the research and development of advanced new products and solutions
- IndustriTAG's comprehensive durable label solutions are fully customizable, including material, adhesive, and printing method, so you can choose labels in any size, shape, color, or configuration. We offer excellent customer service, with a group of knowledgeable scientists on staff, always ready to offer free and quick scientific support
- Our experienced R&D team of scientists is dedicated to testing and ensuring the quality of our products, while conforming to the requirements of ISO 9001:2015

## Services

- Our in-house experts can work with you to design a custom concept for your label, from the material used, to the final layout and printing method, tailored to your unique application
- We offer a wide selection of advanced materials, for extreme temperatures and conditions, to suit any type of industry
- We offer variable data printing (VDP) and barcode grading services, to help streamline the labeling process and ensure that your information and barcodes remain legible and scannable
